

TRANE XR14 HEAT PUMP

Trane Profit-ability

Sell-ability

- ≡ Industry leader and brand reputation
- ≡ Precision engineering
- ≡ Approved matched systems

Install-ability

- ≡ Quick-Sess™ cabinet
- ≡ Easy-access service valves

Service-ability

- ≡ Easy single-side access
- ≡ Refrigerant components outside of coil
- ≡ Easy top and fan removal
- ≡ Easy coil cleaning
- ≡ Roto-lock fittings/no brazing
- ≡ Standardized component locations
- ≡ Full-length control and service valve cover

Performance-ability

- ≡ Efficient, up to 15.00 SEER, 9.0 HSPF
- ≡ Spine Fin™ coil
- ≡ Climatuff® compressor

Rely-ability

- ≡ SEET tested
- ≡ Factory-installed liquid line filter drier
- ≡ Quality components
- ≡ Tougher validation and design criteria
- ≡ Low pressure switch

TRANE LIMITED WARRANTY

- 10-year compressor
- 10-year outdoor coil
- 5-year functional parts

DEPENDABLE AND DURABLE—TO KEEP YOU AND YOUR CUSTOMERS COMFORTABLE.

Whether it's heating or cooling, the XR14 will make sure you get what you need, when you need it, all year round. With a higher SEER and HSPF to deliver even more efficient cooling and heating, the XR14 boasts many of the same **technical advancements** and **innovative features** as our top-of-the line super efficiency units, but at a price that **appeals to a wider range of customers**. And because the XR14

is so efficient, you can promise customers that a **reasonable initial investment** will yield savings on cooling bills over time. As with all our products, the components of a TRANE XR14 have proven themselves in the Systems Extreme Environmental Test (SEET) lab, where only the **strong survive**. That's something both you and your customers will be very comfortable with.

Reliable performance

Precision engineering, design innovation and rigorous testing for reliable, long-lasting performance and durability.

Better indoor air

Add a TRANE CleanEffects™ air filtration system and remove up to 99.98% of airborne allergens from the filtered air for a cleaner, more comfortable home.

Enhanced comfort

Add a variable-speed indoor unit with Comfort-R™ to decrease sound and increase efficiency for better comfort and humidity control.

Efficient operation

Increased efficiency may substantially lower customers' home utility costs.

TRANE XR14 HEAT PUMP

Features and components may vary by model and are shown for illustration purposes only.

1 Climatuff® compressor

TRANE's Climatuff compressor has long been the standard for reliable operation. Whether the best-in-industry reciprocating or the new scroll design, you get superior durability, cost-saving efficiency and low sound levels.

2 Full-sided louvered panels

22-gauge, galvanized steel, louvered panels also serve to keep the coil clean while protecting the coil surface from damaging elements like leaves, tree branches, hail and rambunctious neighborhood kids.

3 Baked-on powder paint

A finish that is virtually indestructible even if the metal gets dented. The paint gives up its electrons to the grounded metal resulting in a smooth finish. Maximum corrosion and rust resistance. Eliminates sharp metal edges. Attractively blends with any architectural style and outdoor landscape.

4 WeatherGuard™ fasteners

Zinc-coated fasteners resist corrosion and keep unsightly rust from discoloring the cabinet.

5 Spine Fin™ coil

Engineered with internally grooved, all-aluminum tubes that stir the refrigerant and enhance heat transfer. Carefully designed to maximize the inherent efficiency, durability and low maintenance requirements of single row, radial-tube heat exchangers. Fabricated in continuous lengths with brazed connections only at the coil (or circuit) inlet and outlet. Eliminates return bends resulting in dramatically lower leak potential.

6 DuraTuff™ base pan

Manufactured to exacting standards. Will not crack, warp, corrode or rust.

7 Quick-Sess™ cabinet with full coil protection

Allows easy access to electrical and refrigerant controls. Improves installation and service time. Decreases unit downtime.

8 Compressor sound insulators

Insulation wraps the compressor to diminish operating sound and create a more peaceful home environment.

9 Electronic Demand Defrost

Advanced solid-state control eliminates unnecessary defrost cycles for energy savings and longer compressor life.

XR14 HEAT PUMP (R-410A Refrigerant)

Model	Nominal Tons	Height (in.)	Width (in.)	Depth (in.)
4TWR4018C	1.5	33	37	34
4TWR4024C	2	33	37	34
4TWR4030C	2.5	41	37	34
4TWR4036C	3	41	37	34
4TWR4042C	3.5	41	37	34
4TWR4048C	4	45	37	34

As part of our continuous product improvement, Trane reserves the right to change specifications and design without notice.

Warranties generate additional income.

Trane extended warranties create additional income. Selling extended warranties is another way to protect your customers and generate future business.

It all adds up to a stellar reputation.

We know that when you recommend our products to your loyal customers you are placing your livelihood and reputation in our hands. We salute your expertise in delivering Trane technology and innovation to your customers—making their homes better places for living. You are the reason we can say, "expect more from Trane."
